

The Neighborhood Website is a private, volunteer- based website designed, built and hosted by a former Plantation Lakes resident. As in life, personal conduct on the website is a serious matter and the administrators will assure that standards of conduct are followed by all participants. The administrators will not tolerate discussions or language that is obscene, hateful or in any way demeaning. Any use of language in discussions that is considered to be in violation of these principles will result in the offending post being removed and the access rights of the individual(s) involved will be suspended or revoked.

Membership on the Neighborhood Website is a privilege - not a right of ownership.
